

Mould Release Spray TC 41

Salient Features:

- ❖ Superior penetration
- ❖ Wet film silicone release agent designed to improve surface finish by preventing adhesion of plastic or rubber to moulding dies
- ❖ Assists release with complex dies and the production of delicate or intricate plastic components
- ❖ Ultra fine spray for complete coverage and high gloss finish

Description:

Silicone Spray is mainly used for releasing plastic molded articles from their molds and dies during the injection molding process.

All statements, technical information and recommendations contained herein are based on TriboCor believes to be reliable, but the accuracy or completeness thereof is not guaranteed. We therefore recommend that the user determines the suitability of the product before its intended use.
